

Benq TK710

BENQ TK710

With the TK710, manufacturer Benq offers a DLP laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 600000:1 FOFO. The manufacturer specifies a laser service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The built-in lens shift and keystone correction function provides freedom when adjusting the projection. The projector can illuminate an image width of up to 575 cm thanks to its 3200 Ansi lumens. In room lighting, however, the picture width should ideally be less than 383 cm. As the projector optionally recognizes Chromecast, Airplay and Miracast screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. It is also Full HD 1080P and 4K compatible.

Brief Introduction
