

Benq W2720i

BENQ W2720i

The W2720i 3D LED DLP has 2500 ANSI lumens, a contrast ratio of 2000000:1 and a UHD (4K2K) 3840 x 2160 resolution. The LEDs give it a lifespan of 20000 hours, which is over 13.7 years at four hours of use per day. The lens shift function allows the projector to be set up very freely. The projector can illuminate up to 508 cm of image width well with its 2500 ANSI lumens. However, in room light, the image width should ideally be under 339 cm. With built-in Android TV software, it offers direct access to a variety of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube, as well as games and other interactive content. Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, and thus all currently offered Blu-ray formats can be recognised by the projector. The operating noise of only 28 decibels makes projection quiet.
