### Enormous Display with Next-level Picture Quality

Hybrid Light Source | Real 4K UHD | Up to 300-inch Screen  
| 2000 ANSI Lumens

HU710P uses a hybrid light source consisting of 1 laser and 2 LED combined with a DCI-P3 94% wide color gamut to provide excellent, realistic colors. HU710P supports real 4K UHD picture quality and screen size of up to a 300-inches for an epic movie experience. It also has a brightness of 2000 ANSI Lumens for a sharper and more realistic picture.

### Brightness Optimizer for Any Illuminance

IRIS Mode | Adaptive Contrast

The Brightness Optimizer function of the HU710P adjusts the brightness of the light source according to the projected image and the surrounding environment, allowing you to enjoy images with optimized brightness and quality. IRIS Mode adjusts the iris to achieve optimal screen settings, even in ambient lighting. Furthermore, the Adaptive Contrast function adjusts the brightness of the light source for both bright and dark screens, so that the right image color is displayed.

### Easy Screen Adjustment to Fit Any Space

Lens Shift | 1.6x Zoom | 4/9/15 Point Warping

The HU710P's simple adjustability with Lens Shift, Zoom and 4/9/15 Point Warping allow you to easily customize your own high-quality home cinema. Its 1.6x Zoom and Lens Shift help you easily optimize your screen to fit your space. The HU710P also provides up to 15 Point Warping for easy horizontal and vertical alignment. This greatly reduces the distortion of projected images, and allows for you to further fine-tune your screen's proportions and positioning.
