INTRODUCING THE NEW IMAGEPROGRAF MULTIFUNCTIONAL LINE-UP

Designed for a wide range of technical drawing applications the new imagePROGRAF MFP Large Format Solutions help unlock the full potential of your productivity.

This complete workflow solution provides a fast and effective system for copying, archiving, and distributing maps, drawings, renderings, site and facilities management plans, design and layout proofs, posters and more.

With thirteen different imagePROGRAF MFP solutions available, Canon has the most comprehensive range in the market. Buy a solution that is customised to your requirements.

Features M Series

- This complete workflow solution includes a large-format printer, scanner, stand, computer, and touch-screen.
- Customise your system and choose from eleven models, from the compact iPF670MFP to the productive iPF850MFP Pro.
- CIS (Contact Image Sensor) Scanning Technology for incredible line definition and accuracy.
- Choose from either a 25" or 40" CIS scanner with a maximum scan speed of up to 32cm per second.
- Dedicated PC with touch screen monitor.
- Scan to print, email, the cloud or save in number of different PDF, JPEG and TIFF file formats.
- Live Preview to edit colours, crop, deskew and other corrections before you print.

Features L Series

- Entry-level Multifunctional solutions that are simple to use.
- No PC required – all operations are done on the colour screen of the scanner.
- Scan to file or Scan to Copy.
- Scan to a network folder or a USB memory stick.
- "Green button" scan-to-copy function.
- Scan speed of up to 7.6cm per second.
- Choose from two options:
 - The compact iPF670MFP L24 for up to A1 size documents.
 - The stylish iPF770MFP L36 for up to A0 size documents.

SUPER SHARP PRINTS AND CRISP LINES

A large-format system designed for maximum versatility and speed
Whether it's construction plans, drawings, maps, or business presentations.

Versatility

Choose from either a 24" (A1), 36" (A0) or 44" (B0) large format printer depending on your requirements. The imagePROGRAF MFP scanner can feed documents up to 41" wide (40" image width)* and its unique paper path returns documents to the front, allowing for a space-saving design with front-accessible operation for flush wall installation. With a large, simple-to-use interface, one-touch scanning/copying has never been easier.

Maximum Productivity

Whether it's construction plans, drawings, maps, or business presentations, speed is critical when deadlines are tight. The imagePROGRAF MFP is a powerful production tool for many environments, allowing you to scan up to 32cm per second for monochrome and up to 7.5cm per second for colour*. Engineered for high-volume printing, Canon's advanced system architecture and 1" FINE print-head with 15,360 nozzles achieve outstanding print speeds.

High-Precision Scanning

The imagePROGRAF MFP uses CIS technology to capture the finest image detail in technical documents, maps, sketches, hand-annotated drawings, and complex schematics. With true 1200-dpi optical resolution*, achieve exceptional monochrome performance with very sharp, clean, black and white images and high-definition colour reproduction. Dynamic preview ensures that scans and copies match original hard copy documents every time.

High-Quality Output

Print complex schematics with superclear small text fonts and crisp lines over colour backgrounds, even on uncoated papers. Canon's super high density FINE print-head ejects tiny 4 picoliter droplets of ink that consistently produce 2400 x 1200 dpi output with fine lines within +/- 0.10% accuracy and as thin as 0.02mm. And Canon's unique 5-colour Reactive ink set delivers durable, smudge-resistant prints with sharp lines and text, bold colours, and smooth fills.

Advanced Software*

A solution isn't just hardware. SmartWorks MFP gives you all the tools you need to quickly and easily scan large format technical documents to copy/file/e-mail. With a simple-to-use interface and unique scan-it-once ability, SmartWorks MFP allows for efficient batch scanning and ensures that top quality scanned images are produced in the least amount of time.

Scan drawings, share documents, make last minute changes, and meet critical deadlines. A fast and effective large format, capture-to-output solution, the imagePROGRAF MFP keeps projects moving forward, helping you be more productive than ever before.

The latest version of SmartWorksMFP also allows you to scan to a cloud based server for easy distribution and storage. Combined with Canon's unique Direct Print and Share (DPS) you can upload, download and print with minimum input from the user.

Upgrade to the SmartWorks Plus software and gain additional features such as pdf/a file formats, multipage pdf scanning, auto cropping and more.

iPF785MFP / 785MFP Pro

iPF830MFP / iPF830MFP Pro

iPF840MFP / iPF840MFP Pro

iPF850MFP / iPF850MFP Pro

* = M-series only. Excludes iPF670MFP L24 and iPF770MFP L36 models. See corresponding datasheet for correct specifications of these models

Scanner Disclaimer

- * The scan rate is proportional across the full range of resolutions supported by the scanner. Actual scan times will depend on host system performance. Quoted top speeds may be limited by the effective bandwidth of the USB2 and is not guaranteed for all media types.
- ** The quoted scan accuracy may vary depending on the operating environment and the thickness of the media.
