HIGH-VOLUME INK BOTTLES

Additional low-cost ink can be bought in a convenient high-volume bottle that has a drip-free nozzle and resealable cap for easy storage and refilling. We have redesigned our ink bottles to incorporate a unique key system to ensure more precise refilling to avoid spillage. The ink bottles also incorporate a pressure mechanism so the bottle automatically stops exerting ink once the ink tank is full. Replacement bottles hold enough ink for a massive 7,500 pages in black / 6,000 pages in colour<sup>1</sup>.

#### POWERED BY PRECISIONCORE™

The EcoTank ET-5150 is powered by heat-free PrecisionCore technology which uses a revolutionary high-density print chip that can generate up to 40 million precise dots per second with amazing accuracy, producing professional-quality output at fast speeds. No heat also means less power consumption, fewer consumables and less intervention, which saves you time and money.
