

BackupAssist Classic **v15**

Compliant backups. Cyber-resilient results.

Resilient and reliable backups

1

Compliance-ready

Aligned with industry standards and best practices for cyber-resilient data protection.

2

Backup flexibility

Back up your files, folders, apps, databases, and systems to your choice of local, offsite, and cloud storage options.

3

Built-in resilience

Ransomware protection with CryptoSafeGuard and forensic insights with Cyber Black Box.

4

Retention control

A wide range of scheduling and retention options to help tailor your BDR strategy to meet specific RPOs.

New in v15

Tamper-Safe Cloud Backups

Lock your backups against ransomware and tampering with cloud immutability. Plus, enjoy stronger stability and faster performance for all your cloud backups.

**Cloud Backup Add-on and BackupCare required*

Cleaner, Smarter Interface

A refreshed UI/UX makes creating and managing backups easier than ever: clear job setup and better feature visibility that cuts through the jargon.

Business Continuity Made Easy

Launch critical systems as VMs directly from your backups with a new VM Instant Boot UI. No more command lines or complexity – instant recovery is now just a few clicks away.

Easy and flexible recoveries

1

Rapid recovery

Restore anything from a single file to a full system image with fast and powerful recovery tools.

2

Recover with confidence

Verify your backups with test restore - so you know recovery will work when it matters most.

Your data is your data

1

No vendor lock-in

Maintain data ownership and access to your backups forever, on your terms.

2

Data portability

Migrate your cloud backups whenever and wherever you choose.

Our range of add-ons for BackupAssist Classic

<h3>BackupAssist Classic</h3>	<p>BackupAssist Classic v15</p> <p>Our flagship product. Software for Windows Server backup and disaster recovery. Perform reliable image and file backups, and recover anything from entire systems to individual files and folders.</p>
<p>Hyper-V Advanced <small>ADD-ON</small></p>	<p>Hyper-V Advanced Add-on</p> <p>Advanced tools for protecting and restoring your Hyper-V data. Perform instant recovery of Hyper-V Guests, granularly restore data from guests, and more.</p>
<p>SQL Advanced <small>ADD-ON</small></p>	<p>SQL Continuous Add-on</p> <p>Nearly eliminate data loss and keep your SQL Server protected. Get your Recovery Point Objective down to minutes, and perform point-in-time restores.</p>
<p>Tape Archiving <small>ADD-ON</small></p>	<p>Tape Archiving Add-on</p> <p>Reliable tape support for Windows environments. Easily compress and encrypt your tape backups for secure, long-term archival storage.</p>
