SIZES:

84" to 180" Diagonal. Custom sizes and formats available upon request.

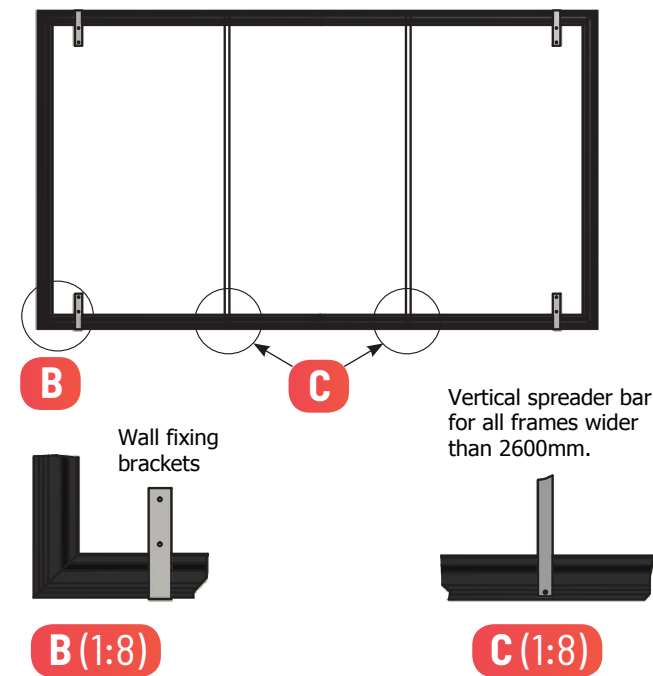

OPTIONS:

Also available on request in 2.37:1, 2.39:1 and 2.40:1

The new Matrix Woven acoustic surface is now available and ready for sale. Designed, built and finished on site at Moss Vale this surface provides the best possible audio solution when speakers are placed behind the projection screen. This surface is wide enough that it does not require any welds and provides the ultimate home theatre experience. Sizes above 110" normally require a center brace however, the Matrix Woven CinemaSnaps comes with 2 braces allowing for speakers to be placed at the back of the screen in the center, left and right. Our novel spring design tensions the Matrix Woven surface allowing for easy install and never requires surface re-tensioning!
