

## SG Audio Visual EX Series Giant Electric Screens

---

### Suitability

The EX Series is suitable for indoor and outdoor cinemas, stage, larger conference rooms, function centres and halls with a high ceiling. These screens may be ordered up to 8m wide.

The EX Series is available in all major formats including scope (2.35:1), widescreen video (16:9) and office multipurpose (16:10) formats. Other formats available include flat (1.85:1) and standard (4:3).

Sizes range from 5m wide to 8m wide. Other sizes are available by special order.

These premium screens are purpose-built for large installations.

### Features

EX Series screens use the highest quality Pro-Matte White screen surface and quiet tube motor.

The EX Series are water resistant and may be used for outdoor cinemas with appropriate cover.

These giant screens feature a large weight bar for flatter screen surface and support wires used to evenly lower and retract the screen.

The SG Professional EX Series may be operated via remote control or from a control booth via the optional low voltage control system.

Our premium wireless wall switch and remote control are included with all EX Series projector screens. A super-long 7.5m cable allows flexibility with the installation of the wall switch.

### Warranty and Spare Parts

1 year warranty against defects in materials & workmanship. Spare parts are maintained in our Australian warehouse.

An extended 3 year warranty is available separately.

### Other Information and Associated Products

SG Audio Visual offer a matching series of long drop electric projector lifts and extra-long projector mounts.

Please ask us about our range of high-output cinema speakers to complete the installation. We even offer a range of amplifiers and receivers.
