

## SG Professional QF Series Quick Fold Screens

---

### Suitability

The QF series from SG Audio Visual is an indoor outdoor portable or fast-fold screen solution for widescreen video and presentations. Sizes range from 3m wide to 8m wide in front or rear projection

Screens may be ordered as portable kits with legs and road case(s) or as wall mounted screens without the legs and cases.

The screens may also be ordered with optional curtain and valance kits. These provide a professional finish for exhibition use and can be stored away in road cases.

Standard format is 16:10 suitable for most widescreen projectors. Other formats including 4:3, 16:9, 2.39:1 and 1.85:1 are available by special order.

### Portable Screen Kit

The QF Series kit (pictured top right) includes the frame, legs and either one or two screen surfaces.

Standard screen surfaces available are front projection white and rear projection silver grey.

The portable kit also has fly points to allow the screens to be used without legs and suspended from lighting rigs or other suitable supports for stage and performance use.

The quality road cases are used to safely store and also transport the screen frame, legs and projection surfaces.

### Wall Mount Screens

The QF series wall mount screens are the perfect solution for large screen installation in a commercial property or for sheltered outdoor use.

These screens are popular for sporting clubs, beer gardens and rooftop cinema.

The replaceable screen surfaces are a significant advantage in difficult environments where there is exposure to sun and rain.

### Warranty and Spare Parts

1 year warranty against defects in materials & workmanship. Spare parts are maintained in our Australian warehouse.

An extended 3 year warranty is available separately.

## Screen Surface

|                 |   |
|-----------------|---|
| White Screen    | Matte White with lightproof black backing.<br>The screen has a gain factor of 1.1<br>Viewing angle is 100 degrees |
| Rear Projection | Silver Grey rear surface<br>The screen has a gain factor of 1.8:1<br>Viewing angle is 65 degrees                  |
| Special Order   | Silver 3D front and white translucent rear surfaces are available as special order                                |

## Frame

|            |  |
|------------|--|
| Frame Type | Tube steel alloy.<br>Double thickness frame on larger sizes. |
|------------|--|
