SGHEX300G   3m wide Chroma Key Green Electric screen for video production

SG HE Series 3m wide Chroma Key Green Electric Screen

The SG Audio Visual HE series is a premium electric remote-controlled screen with a woven chroma-key green screen surface and weight bar.

The SG Audio Visual HE Series Electric Chroma Key Green Screen features a white housing with a 3m green fabric width and 4m drop. It also includes a green weight bar. The screen may be lowered to any position.

These commercial grade screens are perfect for corporate video conferencing, CGI tasks and for TV production.

These screens may be used in conjunction with chroma green floor coverings.

It is not recommended to walk on the screen fabric.

Screen Dimensions

This HE series screen is 3m wide with an extra-long 4m drop for high ceilings.

The overall width of the screen is approximately 3.1m and the housing is rectangular (10cms * 11cms)

Warranty

The EW screen comes with a 2 years warranty with an optional additional 1 year
