Low Profile TV Wall Mount

Warranty Details

The product is guaranteed to be free from defects in workmanship and parts for a period of 12 months from the date of purchase. Defects that occur within this warranty period, under normal use and care, will be repaired, replaced or refunded at our discretion. The benefits conferred by this warranty are in addition to all rights and remedies in respect of the product that the consumer has under the Competition and Consumer Act 2010 and similar state and territory laws.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and to compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

General Safety Instructions

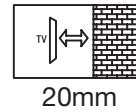

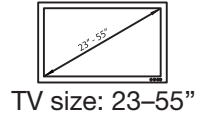

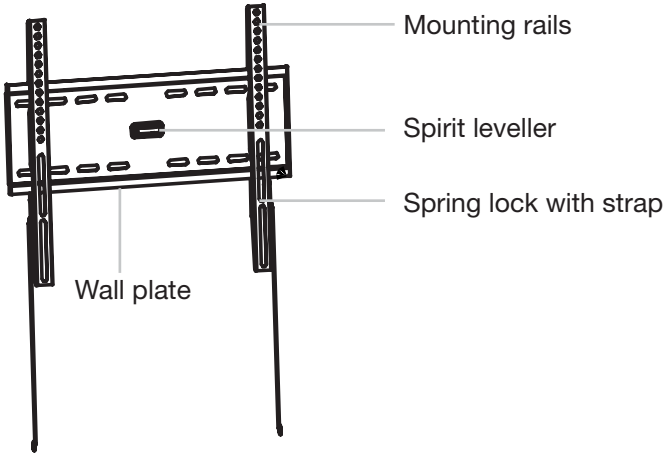

IMPORTANT SAFETY INSTRUCTIONS READ CAREFULLY AND KEEP FOR FUTURE REFERENCE

Read these instructions carefully before assembling and using the wall mount to ensure your personal and other people's safety and to avoid any property loss. If you do not understand these directions, or have any questions in relation to the safety of the installation, we recommend you contact a qualified professional. For all other general inquiries, please contact our after sales support centre using the details at the bottom of the page.

- Check carefully to ensure that there are no missing or defective parts.
- Never use defective parts. Our customer service representatives can quickly assist you with installation questions and replacement for missing or defective parts.
- Do not use this product for any other purpose that is not explicitly specified in this manual.
- Improper installation may cause damage or serious injury. We assume no liability for any eventual damage or injury caused by incorrect assembly, mounting or use, or by noncompliance with these instructions.
- This product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- This product is not a toy. Before installing the Low Profile TV Wall Mount, make sure to keep the product away from infants and children. Supervise young children to ensure they do not play with the product or its parts.

Product Overview

Low Profile Wall Mount

- Suitable for TVs sized 23-55" (58-140cm), weighing up to 50kg
- Low profile, extending only 20mm from the wall

Supplied parts and hardware

The illustration below is to help you identify the parts; some parts are not shown at the same scale.

(A)
Self-Tapping Screws
M8x50mm 4pcs

(B)
Masonry Plugs
Ø10xØ8xT50 4pcs

(C)
Alignment Washers
M5-M8 4pcs

(D)
Flat Washers
D8 4pcs

(E)
Bolts
M4x15mm 4pcs

(F)
Bolts
M5x15mm 4pcs

(G)
Bolts
M6x15mm 4pcs

(H)
Bolts
M8x15mm 4pcs

Wall Mounting Instructions

IMPORTANT!

- This product can be mounted to a **brick, concrete or stud wall**. **DO NOT attach it to a hollow plasterboard wall or decorative wall divider.**
- If you want to install the wall mount to a **wood stud wall**, use a commercially available stud finder to locate the studs in the wall. If you have any doubts regarding this installation, consult a professional installer for advice. **The wall must be structurally sound and strong enough to hold the weight of the TV and wall mount.** If your builder approves mounting to a wood stud wall, follow the instructions on page 9.
- If you want to install the wall mount to a steel stud wall, purchase suitable steel stud fasteners from your local hardware store. **DO NOT** use the supplied large self-tapping screws in steel studs.
- Before installing the wall mount, make sure you have read and understood all instructions. Also ensure that the wall is strong enough to hold the weight of the TV as well as the wall mount.

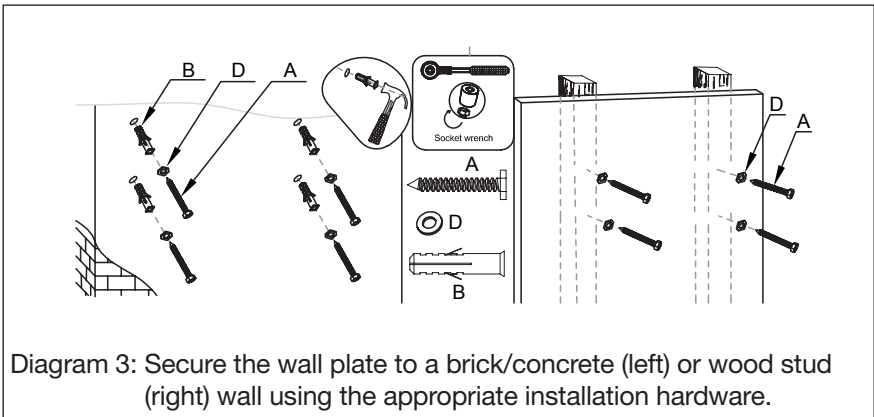

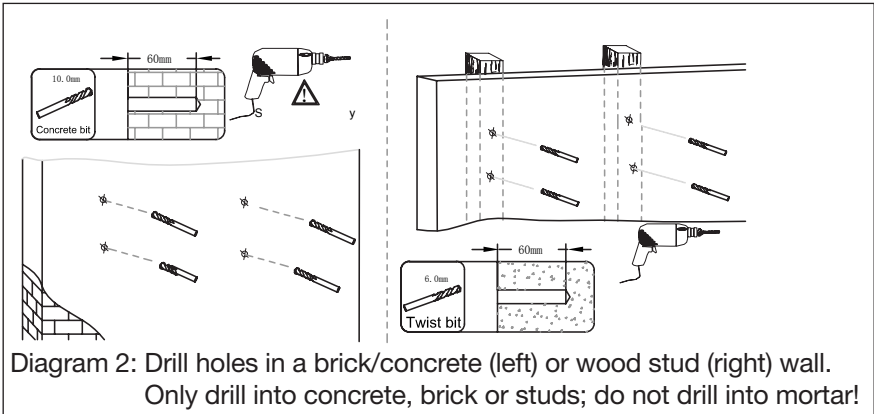

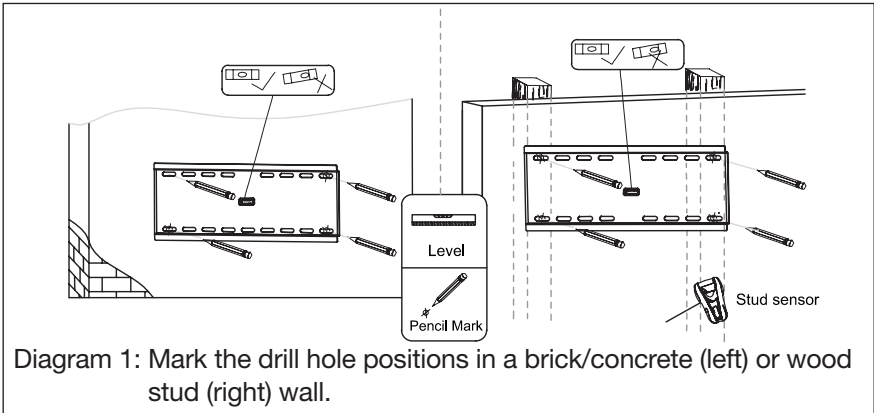

Step 1: Attaching the wall plate

Tools required: Spanner wrench, Phillips head screwdriver, pencil, hammer, drill and drill bits

Mounting to a brick or concrete wall

- Choose a solid wall area far away from any water source and direct sunlight. Avoid hollow areas or the mortar joints between bricks.
- Using the wall plate and its built-in spirit leveller, outline the location of the four holes on the wall (see Diagram 1, overleaf). Ensure the holes are level.
- Using an appropriate size masonry bit, pre-drill a 6cm deep hole in each marked location (see Diagram 2, overleaf).
- Place the masonry plugs (B) into the holes and gently tap them with a hammer until flush with the wall.
- Position the wall plate and insert the self-tapping screws (A) and flat washers (D) into the plugs. Secure the wall plate to the wall, making sure the upper and lower raised sections of the wall plate sit away from the wall (see Diagram 3, overleaf).

Wall Mounting Instructions (Cont.)

Wall Mounting Instructions (Cont.)

Mounting to a stud wall

- Locate the edges of studs in the wall using a commercially available stud finder and mark the centre of the studs. Confirm the presence of the studs by drilling a small diameter pilot hole.
- Using the wall plate and its built-in spirit leveller, outline the location of the four holes on the studs (see Diagram 1, opposite). Ensure the holes are level.
- Position the wall plate and screw the self-tapping screws (A) and flat washers (D) into the studs. Secure the wall plate to the wall, making sure the upper and lower raised sections of the wall plate sit away from the wall (see Diagram 3, opposite).

Step 2: Mounting the rails to a television

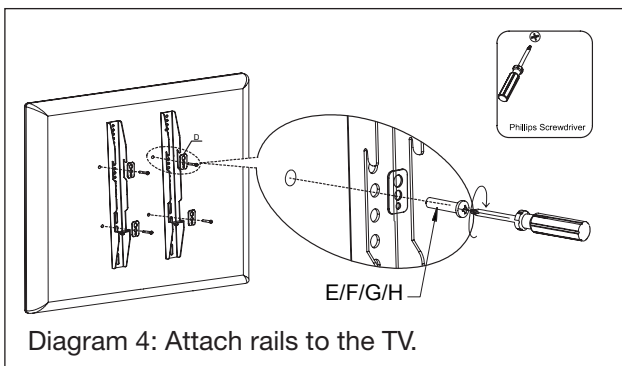

- Using a blanket or towel to protect the front of the screen, place your flat screen TV face down on the floor or a suitable table.
- On the rear of the TV, locate the screw holes used for attaching a wall bracket. Position the two mounting rails vertically over these holes, ensuring the hooks of the rails (with the square holes either side) are toward the top of the TV (see Diagram 4, below).
- Determine the correct size screw (E/F/G/H) to suit the screw holes in the screen.

NOTE: If the television manufacturer included different screws, use them, not the ones that came with the bracket.

- Insert the appropriate screws and alignment washers (C) and secure the rails to the television using a screwdriver.

NOTE: If the screw reaches the end of its travel but has not firmly secured the rail, then you may need to use thicker washers (not supplied) to reduce the depth the screw travels inside the chassis of the TV.

NOTE:
Using incorrect screws and washers will damage the holes on the back of the TV, and uneven assembly will cause the screen to slant.

Wall Mounting Instructions (Cont.)

Step 3: Attaching the TV to the wall plate

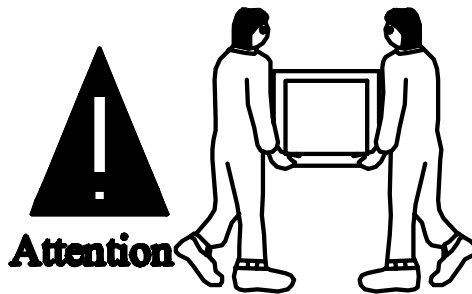

- Safely lift the TV and hook the mounting rails onto the top edge of the wall plate.
- Gently allow the screen to sit against the wall plate.
- Pull on the straps downwards and lock the bottom edges of the mounting rails to the wall plate.

IMPORTANT!

Fixing a flat panel TV to a wall mount requires specialist knowledge. We assume no liability for any injury or material damage incurred due to incorrect assembly or use. Make sure to follow all instructions and if you require professional advice, please consult a relevant tradesperson.

IMPORTANT!

At least two people are required to finish the mounting procedure. Do not attempt to assemble this wall mount independently to avoid incorrect assembly or any possible injury this may cause.

Repair and Refurbished Goods or Parts Notice

Unfortunately, from time to time, faulty products are manufactured which need to be returned to the supplier for repair.

Please be aware that if your product is capable of retaining user-generated data (such as files stored on a computer hard drive, telephone numbers stored on a mobile telephone, songs stored on a portable media player, games saved on a games console or files stored on a USB memory stick) during the process of repair, some or all of your stored data may be lost. **We recommend you save this data elsewhere prior to sending the product for repair.**

You should also be aware that rather than repairing goods, we may replace them with refurbished goods of the same type or use refurbished parts in the repair process.

Please be assured though, refurbished parts or replacements are only used where they meet ALDI's stringent quality specifications.

If at any time you feel your repair is being handled unsatisfactorily, you may escalate your complaint. Please telephone us on 1300 886 649 or write to us at:
