Product **Description**

With responsive in-cell touch technology and an advanced ergonomic design, the ViewSonic® TD2455 touch monitor delivers hands-on control for more productive workspaces and collaborative classrooms. With high-performance in-cell touch technology, this 24" (23.8" viewable) Full HD display provides smooth and responsive touch tracking, along with amazing screen performance, within a sleek and bezelless design. USB Type-C connectivity offers a single-cable plug-and-play solution for laptops, while DisplayPort output enables easy screen mirroring or extended desktops ideal for office productivity and podium touch applications such as conference rooms or classrooms. A magnetic stylus pen lets you write or draw on screen, and easily attaches to the display stand for secure storage. So whether used on its own on office desktops, as a presentation station in corporate meeting spaces, or as a front-of-classroom interactive teaching hub, the TD2455 helps to boost efficiency and productivity. *Some laptops may need to enter BIOS mode and change the power management setting to "tap-to-wake".
