

# What's the *cost* to your organisation .. of poor communication ?

Better communication = Better business

It starts with just one *idea*.

When you write that idea onto a whiteboard ... it becomes something different.

Something *visible*. Something tangible.  
The idea now has a *life* ... something that  
can *change* things for the better.  
Be it in business or education.

Whiteboards are essential instruments that ..

*Turn ideas ... into action®*

VB1812	1800 x 1200mm
VB2412	2400 x 1200mm
VB3012	3000 x 1200mm

VISIONCHART is delighted to announce some major enhancements to our magnetic whiteboard range.

We now manufacture the substrate of all our whiteboards with a new product called 'HardSoft'®.

This product is *environmentally responsive*. It's manufactured from *plantation* poplar trees. During the process, the natural stems and branches of the poplar tree are ground, steamed, then pressed into fibres ... *without* any chemical or oil based additives used in the process.

So *no* pollutants are emitted in manufacturing. *No* chemicals or toxic gluing agents are used. In comparison .... many 'other' whiteboards use a backing sheet manufactured with either a MDF or particleboard backing which use toxic formaldehyde.

At VISIONCHART ... we're very proud to offer our new range of environmentally responsible whiteboards to you.

*It's our way of helping make the planet ... a little greener !*
